ASHCROFT®
Trust the shield.™

Protecting our customers' people, processes and profits.

Good morning, Rick,

This letter serves as confirmation that Ashcroft, a global manufacturer of temperature and pressure products, is pleased to collaborate with the team at PCI INSTRUMENTS to use your diaphragm seals in conjunction with our full range of products. This enables PCI to offer assemblies to clients who specify Ashcroft and confirms PCI assemblies meet the specifications and quality standards of Ashcroft gauges.

I am more than happy to speak directly with any customers to further clarify this point if required.

Thank you for your collaboration so far and I hope we can continue to deliver a quality product and service as a partnership for many years to come.

Yours sincerely,

Damian Walker
